Inaugural Address

of

Mayor William G. Bradley.

Gentlemen of the City Council:

It was proved without a question of doubt that it was the will of the people that, after serving them as their mayor for six years, that I still continue to serve them another year in that capacity by their nominating and electing me for the seventh time and with the largest majority but one that I ever received, without any soliciting on my part, for I did not seek the office or ask a man to vote for me, either at the mayoralty convention or on the day of election, and I therefore appreciate it all the more because it came not from one person or a few persons, but from the rank and file of all parties, acting freely. And now I wish to thank my fellow citizens for the honor they have shown me, and more particularly for their expressions of confidence which they still place in me, which I assure you is of the greatest importance and gratification to me and I solemnly do pledge to them and to you, gentlemen of the city council, my best efforts, and, with your assistance, will give to the city the best administration of its affairs that the circumstances will admit of.

The past administration has no apology to make and we invite the closest scrutiny into the condition of affairs in the past and as they exist today. We could not expect unanimous approval of our every act during the past two years. They

have been eventful years for the city of Rochester, as well as strenuous ones for the mayor and every other city official, still I believe we will be accorded the credit of having stood for what we considered to be for the welfare of our city, unswerved by hope of political reward, of fear of threats or taunts of political opponents. Still, on the other hand, the man who always has his own way without dispute must find life terribly monotonous, for one of the joys of existence is in overcoming opposition. This city has reached out and added a great many improvements in the past two years. In fact, it has been very lavish in its municipal expenditures, all of which, however, they needed very much and are valuable public improvements and are such as our citizens should feel proud of.

The demands of a growing city for improvements come a great deal faster than the financial condition warrants. It is particularly so, I am sorry to say, of our own city, for while we are growing in population, we are not keeping up to it in regard to the increase of taxable property, so as to get the necessary funds to be reducing our debt and to meet our running expenses, that we ought to have. I fail to find a city or town in Maine, Vermont, Massachusetts or New Hampshire with the same comforts and conveniences that the city of Rochester has, and about the same number of inhabitants, but has from one to three million dollars more taxable property.

Finance.

The subject of finance is of the greatest importance to our city, for you have expended for permanent improvements in the past two years, namely:

The new city building and its furnishings,	$85,500 00
New sixteen-inch water main,	49,000 00
New steel reinforced concrete bridge at North Rochester,	2,000 00
Amounting to	$136,500 00

You are growing in population, public improvements and conveniences faster than the increase of your income will admit of. You ought to have at least five million dollars' worth of taxable property instead of four million and three hundred thousand, which you have today. It is not clear to your finance committee just what is best to be done, but you have these things now and the conditions must be met. The tendency of the times is to extravagance by individuals, towns, cities, states and nations. The following is a statement of the financial condition of our city as shown by its books:

Financial Statement.

DEBIT.

Outstanding notes,	$128,493 88	
Accrued interest on notes to date,	2,447 05	
Sewer bonds,	52,000 00	
Accrued interest on sewer bonds,	910 00	
City hall bonds,	65,000 00	
Bills approved unpaid,	385 62	
Amount due water works on account,	8,195 41	
		$257,431 96

CREDIT.

Amount due on collector's list, 1907,	$ 59 97	
Amount due on collector's list, 1908,	16,915 47	
Boston & Maine R. R. stock,	800 00	
		$17,775 44
Net indebtedness exclusive of water bonds,		$239,656 52
Water bonds outstanding,		170,000 00

Highways.

The question of how to keep our highways in a passable condition and at the same time make some permanent improvements is a matter of great importance to the public. We have had only $9,000 appropriated for our roads for the past two years and it is utterly impossible, with this amount of money to do near what the public demands on our roads and, at the same time, they are justified in their demands for better roads, and it would be very pleasing to your committee on roads, bridges and drains to fix every piece of road that they touch each year in the best possible way if they had the funds to do it with, but they have to distribute the small amount they have to work with to the best advantage they can after looking over the 150 miles of roads. I wish we might have $13,000 to $15,000 each year in this department; if we had we could better their condition.

Public Library.

The public library continues each year to be of more and more importance to our city. The reading room patronage is increasing from year to year, and I feel that it is doing a noble work and is a credit our city. For further details I will refer you to the report of the trustees of the library.

Schools.

The question of public schools and how to obtain the highest and best results is one that has interested the American people from the foundation of our government, and at no time in its history has there been that pressing need of such a high grade of excellence in its graduates as today, the complex duties of life requiring every one, so to speak, to be an expert in some line or other in order to insure success in life. The question of sufficient and proper accomodations for our schools is one

of great importance to us today, for there has been an increase of thirteen per cent. of children for 1908 over the year 1907. You have added three new teachers and now you must add two more, making five new rooms and teachers, which means you will have to raise more money for the support of schools. But few people outside of those closely connected with the schools realize the work necessary to attain the end desired. The demands of this department cause the largest expenditures of any in the city and as the city grows the requirements of this department will be more. I think our citizens in general are friends of the public schools. They recognize the necessity of their existence and are willing to give their support and, for the most part, they only ask that they be as efficient as possible and be conducted with due economy.

Water.

This is one of the most important departments of our city in several ways. Pure water is one of the most essential things for any city's growth and prosperity. The public has been much exercised by the bad condition of the water the past year, while the state analysis of the water, made by the state chemist, has shown it to be very clear from impurities that would cause any epidemic of disease. Some of this trouble has existed by reason of the light amount of rain we had in the spring and summer. Again, the superintendent of water, very anxious to better the condition of the water in the early summer, drew the water in the reservoir down six or seven feet in order to get at the lower gate and clean in out. The consequence was, we had no rain and the reservoir did not fill up and very low water was the result all summer. Your superintendent thought he was doing right and probably it would have helped it, if there had been rain to fill the reservoir again. If you remember, in the year of 1898 we had a great deal of trouble with the water. Now I look for and hope that it can be made better again as soon as we have the usual supply of water.

Fire.

I need hardly say our fire department, under its efficient management, is one of the best. While it has not everything it wants and needs, it is in pretty good shape to take care of a fire. It has exceeded its appropriation the past year but it is not their fault. It was caused by the brush and wood fires which cost the department some six hundred dollars. Further particulars will be found in the chief engineer's report.

Police.

This department I cannot but feel is doing its work in a very satisfactory manner. Notwithstanding we are growing in population and with a great deal of territory to cover, we have not added to the police force, and everyone knows there is no city in the state with the amount of inhabitants that Rochester has today that has so small a police force as we have. I will go farther and say that I do not think, go where you will, you can find a city of its size and with the same facilities in steam and electric roads running in and out of our city, with its streets and alleys as clear from drunken men or its police court records any cleaner than ours. I have been here thirty-three years and the first year could sit in my home and see on Sunday, horse trading, drunken men and women and fights. Now I wish to say a word in regard to the night police. Every little while some tax payer will say to me that they are not around at night when wanted. Now I feel it my duty to protect a man when the conditions warrant. To begin with, the two night police commence at eleven o'clock to go their rounds and they have to continue that until four o'clock, rain or snow. That is about four miles travel for each man. There are seven boxes placed in seven different parts of the city. There is a dial brought to my desk every morning and by it I can tell whether they are on duty or not. If anything happens that either of them misses a wind, he is to tell the janitor why and

he writes on the back the reason, so it can be looked up. Neither one of them can get at this dial, so you see they must be on duty or explain why. There has been perfect harmony between the mayor and city marshal and every officer on the force and I am much pleased with the result of the past year.

Janitors and Their Duties.

There are thirteen miles of fire alarm wires, ten miles of police wires and seven police clocks that must be kept in working order. A snow or electrical storm is liable to put either one out of commission at any time and they will have to work nights and Sundays to repair them. There are also 64 battery jars in the battery room that have to be looked after twice a day, two instruments outside, whistle striker, Methodist church, six other strikers, namely: one chief engineer's house; one, Cocheco engine house; one, Torrent engine house; one, Hanscom's house; two at main fire station. Every morning at 8.45 the fire alarm must be rung in to test it; two boilers to run and 75 radiators to look after in the winter season; and the chemical, nine times out of ten, night or day, since the horses have been stabled at the house, is on its way to the fire before the alarm is done blowing. The above, I hold Will Hanscom responsible for. Of course, the other janitor has to help any and everywhere needed, and every time the tramp room or lockup is used they have to be flushed out thoroughly with the hose. If not used, it has to be done twice a week. The walks have to be kept clean, and, in fact, a great part of the entire building must be looked after every day, and every time the opera house is used the two janitors have to work until about midnight with no extra pay. You have a nice building, so pronounced by everyone who comes to see it, more particularly those from out of the city; in fact you will find it from boiler room to opera house ready to take anyone through at any time, but it means work, care and expense. You cannot live in a mansion as cheaply as you can in a small cottage.

I speak of the work of the janitors for the reason of comments that are thrown out by some whom I felt did not quite understand the matter.

Financial Conditions.

Now if you will bear with me, I will lay before you, as plainly as I can, the situation, and as briefly as possible.

Estimates of School Expenses.

Teachers,	$18,060	
Janitors,	1,800	
Transportation,	4,800	
Supervision,	1,100	
Fuel,	1,500	
Repairs,	1,000	
Books and Supplies,	1,400	
Incidentals,	1,000	
		$30,660
Probable receipts:		
Dog tax,	1,300	
Literary fund,	700	
		2,000
Required appropriation from city,		$28,660

Attention should be called to the following figures. They are either from the U. S. census or from the official enumeration of children of school age as required by the state law:

Year 1900.	
Population of Rochester,	8,467
Children of school age,	1,295
Percentage, children of school age,	15.3
Year 1907.	
Children of school age,	1,485
Year 1908.	
Children of school age,	1,675

Percentage, increase over 1907, 13

Estimating the population of the city, from the percentage of the year 1900 and the school census of 1908, we have:

Population of Rochester today 10,800—11,000.

The most significant fact is the increase of children of school age during the last year of 13 per cent.

There are at present in the city three schools having a total registration of over 55 each. They are the third and fourth grades at Gonic and the first and second grades at the Allen school.

Such conditions are literally intolerable.

Furthermore we have ten room with over forty-five registered.

To relieve these conditions we must open at least two new rooms. In the Gonic school there is a vacant room needing only desks and seats to make it ready for occupancy.

In the city proper there are no vacant rooms. Moreover a room was taken away from the high school last September for the use of a new seventh and eighth grade, thus hampering the high school very much. The room occupied by the sixth grade at the Allen school is so poorly ventilated and lighted that it is not fit for use as a school room.

The only permanent solution of these difficulties is the building of a new school house.

It may be possible to postpone such action another year by refurnishing one or two rooms in the old Upham street building.

It must be understood, however, that this would be merely a temporary expedient. Eventually the high school must have two new rooms and the sixth grade room in the Allen school must be abandoned.

The new high school building cost $38,950.52 and there are notes out now against it of $11,600.00. Now I think that you ought to pay each year $3,000 of that, and then you would retire them all in 1912.

Deep Sewer Bonds.

Bonded 1896 for $130,000, they mature in 1916. You pay $6,500 each year beside the interest. You raise for that purpose this year:

On the principal debt,	$6,500.00	
Interest on the balance not paid of $45,500,	1,592.50	
		$8,092.50

So you see, those of you who live to see it will have seven to eight thousand dollars a year less to raise on this item alone.

On your new city building bonds, you make the first payment January 1, 1912, of $3,000, for each year to January 1, to 1918, and from January 1, 1919, to January 1, 1926, you are to pay $5,000 each year, and January 1, 1927, $4,000, which wipes out the debt. You see as soon as you get the deep sewer bonds paid it will not be so hard, and in this way of doing this generation is paying for and enjoying their permanent improvements and the coming generation will take it up where this one leaves off and presumably will continue on with improvements.

Police Extra.

$1,000 more by reason of the drug store license, being $10 each instead of $200. Where we got $800 in 1907, we got about $50 in 1908, and the police court fines being so much less than they used to be that now we have to appropriate $4,000 for that department.

Water Bonds.

Bonded 1892 for	$200,000.00	
You have paid since out of the earnings,	30,000.00	
		$170,000.00

During this time you have also made extensions that cost $59,028.57, which you have paid for also out of the earnings. Now I figure that you can pay $6,000 each year out of the earnings on the bonds and still extend the system as the demand calls for.

Now there is today $170,000.00 in bonds out that mature in 1922, and if you pay the $6,000 each year that I speak of until that time, you will then owe $86,000.00 on the water, which amount I have no doubt will be bonded for a term of years so that the water will pay for itself. Of course if the city should continue to grow and you should have more water takers you would be able to pay faster than the way I have mapped out here, unless some unforeseen things should happen.

Now there are but two ways that I know of to get the necessary funds to meet the above expense. You can re-appraise your property and try to make it as near equal to every tax payer as the wisdom of your assessors will admit. If that was to be done it would seem to me there ought to be two assistants elected to assist your regular assessors and to be done in the spring and summer months, and it could not be done in time to help you for this year. Again, you do not know what may be done in the legislature this winter. The other way is to advance the tax rate enough to meet the demands, and when you get ready to do something else you can lower the tax rate at any time.

And now, gentlemen, in conclusion, allow me to say that in all of these years that I have been mayor of the city of Rochester the uppermost thought in my mind at all times has been to try and do that which seemed to me for the best interest and the good of the city and its citizens at large. While I have made many mistakes,still I have done a great many things that at the time seemed to go against me personally, but I am willing to sacrifice myself to some extent if I can only get fairly good results for our city, well knowing at best I can do but little. I wish at this time to express my sincere thanks to the council of the past year for the courtesy and assistance, to the city clerk, Mr. Worcester, and the assistant clerk, Miss Roberts, on whom I called many times for matters of record and figures, which have at all times been cheerfully given, also to the city solicitor, Mr. Felker, for good advice and watchfulness over the legal affairs of our city. Now, gentlemen of the city council and fellow citizens, with your assistance I promise you to do the best I possibly can in the coming year for the good of our city and its tax payers.

City Government

As organized January 6, 1909.

Mayor, WILLIAM G. BRADLEY.

Councilmen.

Ward One	William R. Gerrish, Joel W. McCrillis, Joseph O. Hayes.
Ward Two	George P. Furbush, B. Frank Felker, Wilder B. Neal.
Ward Three	William A. Osborne, Stephen C. Meader, A. Roscoe Tuttle.
Ward Four	Albert Caron, Gilbert F. Shaw, Isadore P. Marcotte.
Ward Five	Frank H. Babb, Frank B. Maguire, Charles C. Torr.
Ward Six	Guy E. Chesley, Alexander H. Durgin, James B. Young.

City Clerk ..... Horace L. Worcester.
City Treasurer ..... John L. Copp.
City Solicitor ..... Samuel D. Felker.
Collector of Taxes ..... James B. Stevens.
Street Commissioner ..... George T. McDuffee.
Supt. Water Works and Sewers .... Leander P. Pickering.
Marshall ..... Charles A. Allen.
Asst. Marshall ..... Albert F. Wilkinson.
Night Watch ..... Ferdinand G. Sylvain.
Police at Gonic ..... Edrick M. Allen.
Police at Gonic ..... Warren W. Daggett.
Police at East Rochester ..... Thomas H. Gotts.
Police at East Rochester ..... William V. Elliott.
Chief Engineer of Fire Dept. ..... Horace C. Hanson.
1st Asst. Engineer Fire Dept. ..... Charles E. Randall.
2nd Asst. Engineer Fire Dept. .... Leslie M. Seavey.
3rd Asst. Engineer Fire Dept. ..... Elmer E. Lowd.
4th Asst. Engineer Fire Dept. ..... Louis M. Richardson.
Sanitary Officer ..... C. E. Goodwin.
Overseer of the Poor ..... Forrest L. Keay.
City Physician ..... Dudley L. Stokes.

(The last three constitute the Board of Health).

Assessors.

Nahum Yeaton, John Young, Everett M. Sinclair.

Plumbers' Examining Board,

Albert P. Covey, Dudley L. Stokes, C. E. Goodwin.

Trustees Public Library,

Mayor William G. Bradley, Sidney B. Hayes, Stephen C. Meader, Fred P. Meader, John Young, Horace L. Worcester, Willis McDuffee.

Standing Committees.

Finance—Mayor, Meader, and Furbush.

Shade Trees, Parks and Commons—Mayor, Gerrish and Felker.

Public Instruction—Mayor, Osborne and Torr.

Claims and Accounts—Marcotte, Young and Neal.

Public Buildings—Maguire, Tuttle and McCrillis.

Roads, Bridges and Drains—Hayes, Chesley and Shaw.

Water Works and Sewers—Meader, McCrillis and Durgin.

Fire Department—Maguire, Tuttle, and Gerrish.

Street Lights—Babb, Osborne and Felker.

Printing—Durgin, Caron and Torr.

Adams and Old Cemetery Funds—Caron, Chesley and Osborne.

Elections and Returns—Durgin, Chesley and Shaw.

Bills in their Second Reading and Enrolled Ordinances—Marcotte, Hayes and Young.

Legal Affairs—Mayor, Durgin and Neal.

Purchasing Committee—Mayor, Meader and Furbush.

Police—Mayor, Maguire and Babb.

Janitor City Building and Fire Station—William A. Hanscom.

Special Police—Frank S. Edgerly, Phil Hughes, Geo. W. Preston, Albert E. Rollins, Venant Perrault, Joseph Roulx, William O. Morrill, Samuel E. Shapleigh, Frank Andrews, William J. Hartford, Cyrille Vachon, Martin J. Donohue, Joe W. Laundry, Elmer W. Akers, John Ducette, W. A. Hanscom, Edward Josselyn, Arthur H. Bickford, Byron P. Nute, Walter J. Seavey, Samuel F. Corson, Albert Mace, Horace H. Mills, Edwin F. Dame, Chas. H. Eastman, John S. Perreault, Fred S. Babb, Donald McKay, Edward S. Tebbetts, James Callahan, Joseph S. Davidson, Herbert Henderson, Fred M. Varney, James W. Walker, Lemuel E. Goodin, George Legro, Lewis Grassee, Lorenzo E. Decater, Patrick Keating, Nopoleon L. Emmonds, Daniel Emmonds.

Sealer of Weights and Measures—Charles M. Bailey.

Surveyors of Wood and Lumber—Frank B. Preston, Nahum F. Woodman, Edward Elliott, Nahum Yeaton, J. Trafton Whipple, Sidney B. Hayes, Miles H. Cochrane, Frank E. Hussey, Fred S. Babb.

Weighers of Hay, Straw and Coal—Daniel F. Jenness, John G. Morrill, John W. Tibbetts, Charles W. Willand, A. Roscoe Tuttle, John Bilodeau, Frank W. Smith.

Fence Viewers—Frank B. Preston, David H. Tufts, Marvin T. Blaisdell.

Recommendation of Finance Committee for Annual Appropriation.

We, the Committee on Finance, having considered the amount necessary for the maintenance of the several departments for the year 1909, recommend the following amounts be appropriated for their support:

Fire,	$ 5,000 00
Salaries,	5,000 00
Highways,	10,000 00
Macadam,	2,200 00
Sidewalks,	700 00
Miscellaneous,	1,500 00
Sampson Post,	150 00
East Rochester Library,	200 00
Street Lights,	6,600 00
City Poor,	1,400 00
Public Library,	3,000 00
Sewer Bonds,	6,500 00
Interest on Sewer Bonds,	1,592 50
Schools,	28,000 00
Health,	300 00
County Tax,	14,663 07
Police,	3,800 00
Brown Tail Moths,	700 00
Coal for New City Building,	500 00
Insurance on City Building,	900 00
Interest on City Hall Bonds,	2,600 00
New High School Building,	3,000 00
Parks and Commons,	100 00
Total,	$98,405 57

Important Resolutions and Orders Passed by the City Council.

Resolution for Annual Appropriation.

Resolved by the Mayor and City Council of the City of Rochester:

That, for the support of the various departments for the year 1909, there be raised by taxation the sum of ninety-eight thousand, four hundred and five dollars and fifty seven cents ($98,405.57), and the assessors are hereby directed to assess that amount with such overlay as may be thought necessary, the interest on notes to be provided for by the amount coming from the state.

Passed January 19, 1909.

Resolution to Print Reports.

Resolved:

That the City Clerk be instructed to prepare for the printer all matter that is to go into the city reports and that the committee on printing be instructed to make contract for having the same printed and bound.

Passed January 1, 1908.

Amendment Relating to Police Officers at Gonic and East Rochester.

Be it Ordained by the City Council of the City of Rochester:

That Chapter 23 of the city ordinances be amended as follows: By striking out the word "one hundred" and inserting the word "fifty," so that the section as amended shall read as follows:

"Police officers stationed at East Rochester and Gonic fifty dollars each."

And that Chapter 24, Section 3, be amended as follows: By striking out the word "one" in the tenth line, and inserting the word "two," so that the section so amended shall read as follows:

"City physician, overseer of the poor, sanitary officer, (to constitute Board of Health); two police officers at East Rochester, two police officers at Gonic; city solicitor, members of the board of assessors, city treasurer, collector of taxes, street commissioner, chief engineer and four assistant engineers of the fire department; and shall annually in the month of January appoint and confirm fence viewers, field drivers, keeper of the pound, fish and game wardens, sealer of weights and measures, measurers of wood and bark, measurers of stone, weighers of hay, straw and coal, surveyors of lumber."

Passed February 4, 1908.

Resolution to Hire Money to Furnish City Hall.

Resolved by the Mayor and City Council of the City of Rochester:

That a sum of money not exceeding fifteen thousand ($15,000) dollars be raised on note or notes of the city for the purpose of decorating and furnishing the new city building and

curbing and grading about the building, the money to be expended under the direction of the purchasing committee of the city, and that the same constitute a part of the city debt.

Amended to $16,500 and passed February 4, 1908.

Resolution to Issue Bonds for New City Hall.

Resolved, by the Mayor and City Council of Rochester, N. H.:

That, for the purpose of meeting the appropriation for the building of a new city hall in accordance with c. 161 of the New Hampshire Laws of 1905, the Mayor and the City Treasurer are hereby authorized and directed to issue $65,000 bonds of this city, for $1,000 each, dated January 1, 1908, payable, principal and interest, at the Banking House of N. W. Harris & Company, Boston, Mass., in gold coin of the United States of the present standard of weight and fineness. Said bonds shall carry interest coupons at the rate of four per cent. per annum, payable January 1st, and July 1st.

The bonds shall mature on January 1st, as follows,—three each year from 1912 to 1918 inclusive, five each year from 1919 to 1926 inclusive and four in 1927. The bonds shall bear the city seal and be signed on behalf of the city by the Mayor and countersigned by the Treasurer. The coupons shall bear the facsimile signature of the Treasurer. The sale of said bonds to said N. W. Harris & Company, at par flat, is hereby approved.

All resolutions, if any, inconsistent with the foregoing, are hereby repealed.

Passed February 19, 1908.

Resolution to Appoint Committee to Sell Old City Building.

Resolved by the Mayor and City Council of the City of Rochester, N. H.:

That the Mayor and committee on public buildings be a

committee to sell the old city building now used by the city for its offices, 3 fire proof safes, 1 book case, tables, chairs, desks, boiler, pipes and radiators now in said building and used to heat the building, meaning and intending to sell the articles not needed in the new city building; also, 1 single and 2 double fire and burglar proof steel vault doors, providing satisfactory prices can be obtained.

Passed April 7, 1908.

Amendment Relating to Salary of City Clerk.

Be it Ordained by the City Council of the City of Rochester as follows:

That paragraph 3 of Chapter XXIII be stricken out and the following be inserted in place thereof:

"The City Clerk for his services as clerk of committee on water works, three hundred dollars ($300) and for all other services five hundred dollars ($500). The City Clerk is also authorized to employ a clerk at price not to exceed one dollar and fifty cents per day, chargeable to the water and salary departments in equal parts.

Passed April 7, 1908.

Resolution to Hire Money in Anticipation of Taxes.

Resolved by the Mayor and City Council of the City of Rochester:

That the Finance Committee be authorized to raise on note or notes of the city a sum of money not exceeding fifteen thousand dollars ($15,000) in anticipation of taxes, providing it be necessary to do so.

Passed April 7, 1908.

Resolution for Additional Pay for Superintendent Water Works and Sewers.

Resolved by the Mayor and City Council of the City of Rochester, N. H.:

That the sum of one hundred dollars ($100) be paid Leon E. Scruton, superintendent of water works in addition to his salary, for engineering services in that department, the same to be paid by the water department, and a like amount of one hundred dollars ($100) in addition to his salary as superintendent of sewers for engineering services in that department, the same to be paid from the sewerage department.

Passed May 5, 1908.

Amendment Relating to Inspection of Buildings.

Be It Ordained by the City Council of the City of Rochester as follows:

SECTION 1. The Mayor shall serve as inspector of buildings with power to employ any assistants he may need.

SECTION 2. It shall be the duty of the inpector to see that the provisions of Chapter 9 and 10 of the City Ordinances, and this ordinance, are enforced and he shall report any violation of the same to the City Marshal for prosecution.

SECTION 3. The exterior and party walls of all buildings hereafter erected, when constructed of brick or stone or other incombustible substance, shall be solidly and firmly laid in mortar or cement and properly tied together, and if the building is more than thirty-two (32) feet in height, then the walls to the height of the first story shall be not less than sixteen (16) inches thick, and those above the first story not less than twelve (12) inches thick. In all three-story buildings the wall

of the first two stories shall be not less than sixteen (16) inches thick, and no building hereafter erected of brick, stone, or other incombustible substance shall be built in a range of more than fifty (50) feet measuring along the line of the walls facing the street without the intervention of a brick wall at least (8) inches thick. Said wall shall be built up at least eighteen (18) inches above the flat of the roof of the highest building of which said wall forms a part for the full extent of the flat and the top of said wall shall be covered with a coping of stone, iron or other metal, and where there is a mansard or pitched roof, the wall shall be built up to the under side of the roof covering, which roof covering shall be laid and embedded in mortar upon said wall. The provisions of this section shall not apply to single rooms, halls, work-shops, or manufactories requiring larger dimensions, or when in the opinion of the inspector the division of the building into rooms will not admit of such partition walls.

All chimneys shall be built of brick or other fire-proof non-conducting material. All brick flues shall be smoothly plastered inside with mortar from top to bottom and outside below the roofing. In all cases, chimneys shall rest upon a continuous support of metal or masonry extending to the ground. All flues shall be topped out at least two feet above the highest part of the roof of the building to which it belongs.

Hearths, fire places, or grates shall be laid upon brick or other trimmed arches or upon bars of iron supporting a bed of brick work. In no case shall a nail be driven into the masonry of any flue.

Section 4. The plans for the erection of or remodelling of any such buildings shall be submitted to the inspector for his examination and approval.

Section 5. Any person or corporation violating any provisions of this act shall be fined as provided in Chapter 40, Section 3, of the laws of 1893.

Passed May 5, 1908.

Resolution to Raise Money to Build Bridge at North Rochester.

Resolved, by the Mayor and City Council of the City of Rochester:

That a sum not exceeding two thousand dollars ($2,000) be raised on note or notes of the city for the purpose of building a bridge across the Salmon Falls river at North Rochester (said bridge to be built in conjunction with Town of Lebanon, Me.) and that said note or notes shall constitute a portion of the city debt.

Passed July 7, 1908.

Resolution to Build Bridge at North Rochester.

Resolved, by the Mayor and City Council of the City of Rochester:

That the Mayor and Committee on Roads, Bridges and Drains be authorized to build a new bridge over one half of the Salmon Falls river at North Rochester, also abutments at the same, and to share equally with the Town of Lebanon, Me., the expense of building a center pier. The total expense of abutments, pier and bridge not to exceed two thousand dollars; and the aforesaid committee is hereby authorized to make any contracts necessary to carry this resolution into effect.

Passed July 7, 1908.

Amendment Relating to Pay of Members of Fire Companies.

Be it Ordained, by the City Council of the City of Rochester:

That Chapter VIII of the General Ordinances of the city

(relating to pay of firemen) be amended by striking out Section nineteen (19) and inserting the following therefor:

"The annual pay of the members of the department (except the Board of Engineers) shall be as follows: The members of Companies 1, 2, 5 and 6, forty dollars each; of Companies 3 and 4 twenty dollars each; clerks of companies ten dollars each; stewards fifteen dollars each."

Passed July 7, 1908.

Resolution to Connect Steam Pipes at Fire Station with Heating Apparatus at City Building.

Resolved, by the Mayor and City Council of the City of Rochester:

That the Committee on Public Buildings be authorized to have the steam pipes in the fire station connected with the heating plant in the new city building on Wakefield street so that the fire station may be heated by the plant in the new city building; and that the Finance Committee be authorized to transfer from the appropriation for furnishing and grading new city building a sum not exceeding seven hundred dollars to pay the expense of the aforesaid connection.

Passed July 7, 1908.

Resolution to Purchase Land on Allen Street.

Resolved, by the Mayor and City Council of the City of Rochester:

That the city purchase a certain tract of land situate on Allen street in the city of Rochester, known as the Dame lot, for the sum of four hundred dollars, and that the Mayor be authorized to take a deed of the same in the name of the city, and that the sum of four hundred dollars be taken from the

appropriation for furnishing and grading the new city building, for the payment of the same.

Also, that the Mayor be authorized to accept in behalf of city a certain tract of land to be presented to the city by Mr. Frank Springfield, free of cost to the city.

Passed Nov. 4, 1908.

Resolution Asking for Portrait of Chas. W. Brown.

Resolved, by the Mayor and City Council of the City of Rochester:

That an invitation be extended to Mrs. Frederick A. Brown, daughter of Charles W. Brown, late City Clerk of our city, to present a portrait of her father to the city to be hung in the office of the City Clerk, in appreciation of his long years of faithful work for our city.

Resolved, that the City Clerk be authorized and instructed to forward to Mrs. Brown a copy of these resolutions and vote of the city council relating thereto.

Passed Nov. 4, 1908.

Report of Chief Engineer of Fire Department.

To the Honorable Mayor and City Council:

In rendering my report of the Rochester Fire Department, ending December 31st, 1908, would state that there have been 18 bell calls; 18 still alarms, 14 brush fire calls, two at Gonic, two at East Rochester, 10 in city proper.

The amount of property involved was as follows; Valuation of buildings $65,584, insurance on same $41,200, loss paid $33,956; contents valuation of $60,500, insurance on same $27,125, loss paid $25,175.

The forest fires have burned over 350 acres, with the loss estimated $1,250.

There have been purchased and added to the equipment, 500 feet two and one-half inch rubber lined double jacket hose, one deluge set, eighteen Cover's automatic respirators, one fire alarm box.

I would recommend a permanently employed driver to stay at the central fire station for day and night duty, for quick attendance at fires within the city limits, also 1,000 feet rubber lined double jacket fire hose, also one steam fire engine. In my last report I recommended four new fire alarm boxes and but one has been purchased this season and I would earnestly recommend that the other three be purchased this season. The cost of the fire department for the year will be found in the report of the committee on finance.

In behalf of the board of engineers, I will take this opportunity to extend our sincere thanks to all the members of the fire department for the promptness with which they have discharged their duties during the past year. We would also

thank the members of the city government, who have rendered the department any assistance during the year.

Respectfully submitted

H. C. HANSON,

Chief Rochester Fire Department.

December 31, 1908.

Location of Fire Alarm Boxes.

Boxes.

16 North Main street, corner Bridge street.
17 Main street, corner Congress street.
21 River street, corner Lafayette street.
23 Waldron avenue, corner Chestnut street.
25 North Main street, near Fairbanks' store.

33 Hanson street, near Wrisley House.
34 Summer street, near Mrs. Roberts' stone house.
35 Portland street, near Brigham's store.
37 Silver street, near electric light station.
41 South Main street, near Wallace shop.
43 Upham street, near school house.
47 Car barn, foot of Charles street.
52 Charles street, corner of May street.
54 Charles street, corner Woodman street.

Instructions to Citizens.

1. Upon the discovery of a fire, notice should be immediately communicated to the nearest alarm box, the keys to

which are in the hands of all regular police, and in boxes near each alarm box.

2. Upon the discovery of a fire, or positive information of a fire, break the glass in the key box, take key and unlock alarm box, pull down the hook once as far as it will go (without jerking) and then let go. Shut the door but do not try to remove the key, as it is locked in a trap lock and can only be removed by a release key, which is carried by each engineer, who will as soon as convenient release and return it.

3. All persons giving fire alarms, are requested to remain by the box a moment, and if no clicking is heard in the box pull again; and if you still hear no clicking, go to the nearest box procure a key and give an alarm from that. Remember that the firemen will come directly to the box which has been pulled, and be sure that some one stays at the box to direct them to the fire.

4. *Never pull an alarm for a fire seen at a distance.*
Never touch a box except to give an alarm for fire.
Give an alarm for no cause other than actual fire.
Don't give an alarm for a chimney fire.

5. Owners and occupants of buildings are requested to inform themselves of the location of alarm boxes near their property. Be sure the alarm is promptly and properly given.

Signals.

Two strokes of the bell is the all out signal.

Six strokes of the bell is for a brush fire, or a fire at a distance, where the fire department will be needed.

One stroke of the bell is the engineer's test.

The above signals are given only by the chief engineer.

Inventory of Property.

Three hose reels, two hose wagons, one hook and ladder truck, one combination chemical hook and ladder truck, one set of runners for same, three sets of sleds for hose company, two set of swing harnesses, rubber coats and hats for each company, four horse blankets, 5,500 feet of hose, eighteen Cover's automatic respirators, one deluge set, five hydrant gates, ten play pipes, six three-gallon chemical extinguishers, 590 feet of ladders, one hand engine.

Police Department.

JOHN L. COPP,

City Treasurer.

Report of Superintendent of Water Works for the Year Ending Dec, 31, 1908.

To the Committee on Water Works:

Gentlemen:—The seventeenth annual report of the superintendent of water works is herewith submitted.

Water was supplied to the city from the reservoir during the winter and spring up to the first of June when Round Pond was turned on and water from this source was used up to Sept. 12th. Before this date the water had been drawn so low in the pond that it was necessary to open the lower gate at the gate house so as to admit the necessary supply. Immediately after this was done the water showed evidence of algæ to a marked degree. The water was then taken from the reservoir and showed considerable improvement for about three weeks when the supply also began to taste and smell from the same trouble. November 1st the water in Round Pond was tried again but was found to be more objectionable than that in the reservoir and I immediately turned back into the reservoir supply. During the early summer I had drawn the reservoir down seven feet below high water as I thought it might improve the water to change it during this period, but the drouth came and I was unable to fill the same until late in the fall, which condition of affairs accounts for the presence of algæ in the reservoir, which I consider the better source of supply of the two, notwithstanding all talk to the contrary. After the water became objectionable the entire system was flushed out five times, but this did not seem to remove any of the objectionable qualities.

The analysis during this time by the State Board of Health showed the water to be perfectly wholesome for domestic use and entirely free from bacillus coli or disease germs. A treatment of sulphate of copper would probably remove this objectionable feature in the water to a large degree. I should never recommend a filter on this system as the water sheds are on the whole free from contamination and clean,and filtering of water from such water sheds as you now have is entirely uncalled for and a waste of money. If any improvements are to be made on this part of the system I should recommend that the shores of the reservoir be dug out where shallow, and the entire shore ripraped to a depth of six or seven feet below high water mark and the brook from which the reservoir is filled be cleaned up for at least two miles and the channel cleaned out so the water would have a continuous flow to the intake. This would allow the water to be aerated more or less and remove some of the color which is very noticable at some seasons of the year.

Following is the amount pipe, new service, etc., laid during the year.

CONSTRUCTION.

North Main street, 6-inch,	817 feet
Cleveland street, 6-inch,	90
Cleveland street, 1-inch,	88
Park street 1-inch,	310
Total laid 1908,	1205

Leaks in service pipes,	16
Fountains repaired,	2

L. E. SCRUTON,

Report of Superintendent of Sewers for Year Ending Dec. 31, 1908.

To the Committee on Sewers:

Gentlemen:—The annual report of the superintendent of sewers is herewith submitted·

Number connections put in during year,	27
Number connections to date,	976

FEET MAIN PIPE LAID DURING YEAR:

5-inch, Bridge street,	83.5
Manholes built,	1
Total feet main pipe to date,	89,050
Total miles pipe laid,	16.86

The sewers have been flushed as usual and were found in good condition except Chestnut and eastern end of Summer street where the mains had become full of fiberous roots and stopped up. Your attention is again called to complaints of the residents on the eastern end of Portland street and vicinity in Rochester and the necessity of proper sewerage in that locality is essential to the health of the whole community.

L E. SCRUTON,

Property of Water Works Department.

To the Committee on Water Works and City Council of the City of Rochester:

Gentlemen:—I assumed the duties of this department Jan. 6, 1909. Following is a list of supplies and tools found in the shop and store house of this department:

5 rubber rings for Ludlow hydrants.
40 pounds cotton waste.
100 feet $2\frac{1}{2}$-inch hose.
2 bit braces.
1 extension bit.
4 axe handles.
1 new Ludlow hydrant.
2 old Coffin hydrants.
4 1-inch meters. 1 $\frac{5}{8}$-inch. 1 $\frac{3}{4}$-inch, new.
2 $\frac{3}{4}$-inch meters, out of repairs.
1 $\frac{5}{8}$-inch meter, out of repairs.
3 gallons white paint.
$\frac{1}{2}$ barrel black paint.

Respectfully submitted,
L. P. PICKERING,
Superintendent of Water Works.

Property of Sewer Department.

To the Committee on Sewers:

Gentlemen:—Upon entering the duties of this office, I find the following list of supplies and tools:
112 Ys, 4 to 6-inch.
9 Ys, 8 to 20-inch.
7 Ys, 4 to 12-inch.
1 Y, 4 to 8-inch.

10 Ys, 4 to 18-inch.
1 Y, 8 to 18-inch.
8 Ys, 4 to 10-inch.
2 Ys, 8 to 10-inch.
1 T, 6 to 6-inch.
2 Ts, 6 to 15-inch.
27 feet, 15-inch pipe.
70 feet, 12-inch pipe.
6 feet, 6-inch pipe.
416 feet, 4-inch pipe.
95 feet, 4-inch C. I. soil pipe.
1 foot, 8-inch long bend.
2 feet, 8-inch short bend.
8 feet, 8-inch $\frac{1}{4}$ bend.
48 feet, 4-inch $\frac{1}{4}$ bend.
70 feet, 4-inch $\frac{1}{8}$ bend.
5 feet, 8-inch sewer trap.
2 grade poles.
1 plank puller.
1 level.
1 brick trowel.
1 brick hammer.
1 trench line.
1 6-inch test plug.
1 8-inch test plug.
1 10-inch test plug.
50 4-inch sewer plugs.
1 8-inch sewer plug.
$\frac{1}{2}$ barrel cement.
4 trench frames.
About 500 feet old trench plank.
1 trench pump, (badly worn).

Respectfully submitted,

L. P. PICKERING,

Superintendent of Sewers.

Report of Tree Warden.

To the Mayor and City Council ot the City of Rochester:

I have tried to keep the trees in the public highway as free from the brown tail caterpillars as possible and no damage was done by them. But some private lots were badly infested and not a leaf was left on the trees the last of June. Let everybody destroy a nest when they see one, as it means from 150 to 300 caterpillars next summer from each nest.

There are a great many people who think that by building fires in the street, which is very dangerous in a dry time, that the millers would fly into the fire and burn. But by Supt. Kirkland's report of the work in Massachusetts, I see that they tried light traps around arc lights and over 94 per cent. of the millers caught were male millers, and the experiment was not satisfactory.

There are about fifty dead trees that will have to be removed as soon as possible or they will be dangerous to the public.

C. E. GOODWIN,

Tree Warden.

Report of Overseer of Poor.

Dead animals buried,		15
Houses fumigated,		21

Respectfully submitted,

DUDLEY L. STOKES,
FORREST L. KEAY,
CHARLES E. GOODWIN,

Board of Health of Rochester, N. H.

Report of Superintendent of Streets.

To His Honor, the Mayor, and the City Council of the City of Rochester:

Gentlemen:—I have the honor to submit the annual report of the highway department, together with a list of tools which are now under the care of the street commissioner, for the year ending Dec. 31st, 1908.

There has been considerable work accomplished in the outside districts with the road machine this year. The outside roads had been badly washed out by heavy rains, so we had to repair those that were in the worst condition. We gave the best attention possible to the Barrington road, the Swamp road, Ten Rod road, Meaderboro, and Four Rod road, also the road that passes the home of Charles Estes.

The sidewalks have received the best attention possible. There have been new sidewalks laid in front of City Hall, one-half of that in front of Hayes and Dodge blocks, also some brick walks laid on Wakefield and Bridge streets. Considerable repairs were made to sidewalks throughout the city, by the use of cinders, there being 500 loads used.

Surface Sewers.

At East Rochester we built six new drops, viz: Two on Main street, one on Portland street, two on Eastern avenue, one on Highland street. At Gonic we built two drops on Church street. In connecting these drops with the main sewer we used 20 or 30 feet of 8-inch pipe for each drop.

There have been five miles of bushes cut this year.

Property of Highway Department.

1 stone crusher.
1 steam road roller.
3 sets two-horse sleds.
3 sets double harness.
2 two-horse dump carts.
1 pair wheels.
6 small shovels.
3 plows, old.
6 post-hole spoons.
2 cross-cut saws.
1 hand roller.
1 jack screw.
3 striking hammers.
2 monkey wrenches.
2 road machines.
1 boiler and engine.
8 horses.
1 set one-horse sleds.
5 single harness.
1 stone barge.
10 picks.
6 coal shovels.
6 chains.
6 crowbars.
3 sets fall blocks and ropes.
12 lanterns, with red globes.
12 hand drills.
3 sledges.
10 snow ploughs.
6 hoes.
3 turf diggers.
2 long-handled shovels.
5 steel rakes.
3 brush scythes and snathes.

4 street blankets.
3 horse brushes.
1 wagon jack.
1 hand saw.
1 brush axe.
3 grub hoes.
2 pitchforks.
6 stable blankets.
3 curry combs.
3 mane brushes.
2 axes, old.
2 spread chains.

Respectfully submitted,
GEORGE T. McDUFFEE,
Superintendent of Streets.

Inventory of Real Estate

As Returned by the Asssessors 1908.

Report of Trustees

of the

Rochester Public Library,

1908.

At a meeting of the trustees of the Rochester Public Library, December 30, 1908, it was voted that the report of the secretary, librarian and treasurer be presented to the city council as the annual report of the trustees for the year 1908.

Rochester Public Library, 1908.

Report of Library Trustees.

To the Honorable Council of the City of Rochester:

Gentlemen:—The trustees of the Rochester Public Library herewith submit their fifteenth annual report, including the librarian's and treasurer's report, for the year ending December 31st, 1908.

During the year there has been no change in the policy or management of the library, but it has been the endeavor of the trustees to meet the demands of the public. This is shown by the fact that we are now supplying each month three branch libraries. The East Rochester library with 200 volumes. The Gonic library with 400 volumes, and in June we established a branch library at Meaderboro with 50 volumes. That the aims and resources of the library are being better understood and used is indicated by the establishment of the branch libraries, and also in the increase of the circulation over last year of 6,550 volumes. The interest taken by the public in the library is evident by the following comparison, the 1907 report of the Dover library contains 35,270 volumes, the circulation was 55,813. The Rochester library contains 12,533, the circulation 1908 was 46,237. Considering the population of both cities it is evident from the circulation that the people believe in the library.

During the year 481 volumes have been purchased. The trustees would have bought more books, but in order to keep the building in repair we had to reduce the appropriation for books and make some repairs. Painting and puttying the windows, repairing the slate on the roof and other repairs. But as one has said, "The royal road to culture is through a well stocked library," we hope to appropriate more money for

books the coming year. But we wish to remind the public that the Rochester Public Library is without the bequests of other public libraries. The only bequest our public library has had is the $1,000 of the Jennie Farrington fund, the interest is used for the purchase of Juvenile books. In some public libraries the donors specify the particular class of books they desire purchased with the income of their bequest, and others give for general purchases. We trust that some of our citizens will remember the public library and donate a sufficient fund to equip the library with good reading and with the latest and best lists of reference books.

The trustees wish to express their thanks to Mr. C. A. C. Hanson for the four volumes of the Genealogy of New Hampshire given in memory of his father Dominicus Hanson and also to the Rochester Woman's Club, who, by their donation, made it possible to secure for the library the pictures of the Library Art Club, and to all others who donated books and relics for the historical room.

In conclusion the trustees would request of the Honorable Council that they continue the appropriation of $3,000 for 1909 for during the coming year the insurance on our books will have to be renewed for three years, and we desire in some degree, to satisfy the demand of the public for good literature and also to make the public library an able adjunct to our public schools by purchasing the latest reference books.

The trustees are gratified at the increase in circulation and attendance and wish to express their appreciation of the attention shown the patrons of the library by the librarian and her assistants, during the year.

JOHN YOUNG,
Secretary.

To the Trustees of the Rochester Public Library:

Gentlemen: I gladly submit to you, in this fifteenth annual report, the record of a busy year. Busy not only with its larger circulation, its additions, its agencies, its work with the children and the schools, but with its increasing reference work and its attempts to satisfy the demands made upon it.

At the beginning of 1908 the library numbered 11,668 volumes. During the year, 176 volumes have been added by binding periodicals, 246 volumes have been received as gifts, 79 purchased from the interest of the Jennie Farrington fund and 402 purchased from the general fund, the total number of accessions 903. Thirty-three volumes have been discarded because unfit for use, four lost and one destroyed on account of exposure to contagious disease, making the entire number of accessioned volumes in the library at this time 12,533. The classes represented as follows:

Fiction,	2,852	Sociology,	264	History,	821
Juvenile,	1,633	Philology,	27	Reference, to include Government Publications,	2,421
Periodicals,	1,077	Science,	326		
Biography,	795	Useful Arts,	264		
General Works,	16	Fine Arts,	353	Unaccessioned Pamphlets, Maps, Charts, etc.,	800
Philosophy,	104	Literature,	656		
Religion,	366	Travel,	558		

In the purchase of books due attention has been given to a proper porportion of the classes. Many standards have been supplied and a beginning made toward duplicating poor editions of those already on the shelves. By adding a few of these each year, the sets will soon be completed without noticeable depletion of the book allowance.

The library has been opened to the public, 309 days during 1908 and 46,237 books have been given out, 200 from the Meaderboro agency, 1194 from East Rochester, 1529 from Gonic and 43,324 from the library. A gain of 6550. That you may note the increase by classes as compared with last year the tables of circulation for 1907 and 1908 are given.

Circulation at Library.

The people of Meaderboro corner have shown their appreciation of the little agency, established in June, through the efforts of Mrs. Charles S. Brock. She has assumed full charge of the work taking care of the fifty books left in her charge, giving time two days each week to their circulation and making all necessary reports and exchanges. Mrs. Brock reports a circulation of 200.

It is pleasing to note the decided increase in circulation at East Rochester, 550 books have been sent to the agency, 50 being exchanged each month. Seventy-seven people have registered during the year, making the entire number of cards in use, 1430.

The resignation of Mr. Levi Meader at the Gonic agency was very much regretted, but his successor, Mr. George H. Marsh, has taken up the work with much enthusiasm. During the year 1150 books have been sent to Gonic and the reports show that 1529 have been given out and 28 new cards issued.

The children's room at the library has attracted many little visitors during the year and the books and magazines at their disposal are very much used. The assistant who has this room in charge, surely has her hands full during portions of the day looking after the wants of the little ones and keeping the larger ones out of mischief. 5651 readers have been registered 864 more than last year. 12,713 books have been given out during the year an increase of 1264.

The books for this department have been purchased entirely from the interest of the Jennie Farrington fund. The children have a bright, attractive room and good books but it has been impossible to do anything in the way of decoration. Many of the children come from pictureless and bookless homes. What an opportunity for some man or woman to give something of a

decorative nature to beautify the room. Indeed the kind offices might be extended to other rooms in the building.

Although no record is kept of books or magazines given out in the building an attempt is made to keep the number of readers and students. The number for 1908 was 11,787, 2121 more than last year. This gives but little idea of the extent to which the rooms have been used for it is safe to say that a large number of the readers are never counted.

The reference work has been a large part of the duties of the year. Often the students have filled every chair in the room and then have overflowed into the reading rooms. This has been almost entirely personal work and hands and brains of the entire staff are kept busy, explaining the uses of the reference books and hunting up stray bits of information. It is one of the uses for which the library exists and the result is worthy of the effort. The additional reference books purchased have been very much appreciated.

The larger part of the work with the schools has been done with the pupils. Only 332 books have been given to teachers for school use.

A beginning has been made during the last few years, toward a historical and genealogical department. Some valuable gifts have been received and a few things purchased. The genealogy of New Hampshire given by Mr. C. A. C. Hanson, in memory of his father is a most valuable acquisition. Mr. Stephen D. Wentworth, has added to the collection an old account book used in connection with the "Wolfe Tavern" which at one time was located on Haven Hill and is said to have been the first tavern in Rochester. This is of great interest locally, because of its old names. Mr. John Meserve has presented many interesting old things, among them a sword cane, bearing the initials "G. W." Tradition says, that it was owned and used by George Washington, also an Indian spear head, which he ploughed from the ground near Gonic hill, and several old papers and books. Mrs. F. C. Hayes of Wolfeboro has given an old paper. Cases are very

much needed where such things can be carefully preserved. It seems a pity that all the interesting relics might not be collected from the attics of Rochester before it is too late and placed in the library.

The Rochester Woman's club have made it possible again this year for the library to have access to all the pictures of the Library Art club. These are both instructive and entertaining and would be greatly missed. Many useful and valuable gifts have been received aside from those already mentioned, as it would be impossible to mention them individually your attention is called to the list appended.

In addition to the regular work of the library and the duties which each day has brought forth, an inventory of the entire library has been taken by the accession number. This has been a long piece of work and has meant the handling of every book in the library but the result has been very satisfactory. All but eight books have been accounted for, errors have been detected and a new system for keeping discarded books inaugurated.

Never in the history of the library has the work gone on so smoothly or with quicker or better service. The public has been courteous, patient and appreciative and this has served to encourage and inspire to greater zeal and more untiring effort. It costs somebody something to furnish these privileges which are often accepted with such thoughtless indifference and a simple thank you means much to the tired attendant.

I wish at this time to speak of the splendid work of the assistants and acknowledge my indebtedness to all who have assisted in the work of the library during the year, especially those who so kindly helped during the long illness of one of the assistants. I also wish to thank the trustees for the conveniences which they have provided for carrying on the work and for their courtesy and encouragement.

Respectfully submitted,

LILLIAN E. PARSHLEY,

Librarian.

REPORT OF THE SUPERINTENDENT OF SCHOOLS.

To the School Board of Rochester:

There are many matters that claim attention in this report. Two subjects, however, are of such preeminent importance that they should not be dwarfed by having included with them matters of much less moment. I refer to the growth of the schools and the consequently heavily increased expenditures in the school department of the city budget.

Each year persuant of the statutes of the state, a census of children of school age is taken by enumerators employed in the city. In 1907 the census showed a total of 1485. In 1908 it showed 1675, an increase of approximately 13 per cent. in one year. The average membership of the city schools in 1907-8 was 1117. At present it is 1218, an increase of 8 per cent.

This increase is and should be a source of pride to us and to Rochester. At the same time it confronts us with a serious problem. There are, at present, in the city three rooms having a total registration of over fifty-five each. There are ten with a registration of over forty-five each.

I wish that I had at my command words that might give you some idea of the relative quality and quantity of instruction received by a pupil, who is one of 55 under the tutelage of a single instructor. I need not refer to the strain on the teacher herself in attempting to keep her pupils on a par with those of her colleague, who has but 35 or 40. There have been within my experience in this city three instances where a teacher has

broken down under the strain and retired in discouagement and invalidism.

And I should like to express right here my tremendous admiration for the teachers, who without a whine or complaint grapple with the problems we put before them and achieve the success that is theirs.

Now for practicable measures looking to the relief of these most pressing needs.

The overcrowding of the mixed third and fourth grades at Gonic will be remedied when you have fitted out the 6th room in that building. When that is done the facilities will be sufficient to accomodate the pupils there for some years to come, the more so on account of the large number who leave school at the earliest age possible.

In East Rochester, by the establishing of a new room last September, you have provided ample room for present needs, but the remarkable increase in the population of Ward one, as shown by last fall's census, is a warning that may have to be heeded in 1910.

In Meaderboro, the increase, though small, is serious as in that school the work of the entire eight grades is done by one teacher. I recommend that the mininum age of entering this school be reduced to 5 years and that pupils be allowed to enter only on alternate years, thus eventually reducing the number of grades taught in any one year from eight to four.

In the city proper conditions are more serious. The Maple street school is already filled to its capacity. The School street building had so many pupils last September that some had to be transferred to the Allen building where there are fifty-six in the first garde and forty eight in the second.

It appears from these figures that for these grades two new rooms must be provided. Moreover, the sixth grade room in the Allen school is unfit for use because of poor light and ventilation. Again, as the principal points out in his report, more room is needed for the high school. This makes a total of four rooms that should be provided for another year in addition to

those already in use. This means a new building. Such a building is of course out of the question for a year but it must be ready for occupancy in September, 1910. In the meanwhile by utilizing the Upham street building and by continuing the cramping of the high school, we must make shift to house the pupils as best we may.

Now as to finances. The largest item of expense is teachers' salaries. At present under the rules of the board these salaries are graded according to length of tenure of office beginning with $360 and increasing yearly until $450 is reached. I should like to see the minimum raised to $370 that being an even $10 a week. I should recommend that the board investigate and adopt a system based not wholly upon tenure but at least partially upon merit.

A considerable increase in the item must be had this year to meet the expense of the new rooms established. These new rooms will also cause an increase in the fuel item. I would call attention here to the resumption of the practice of paying for the winter's coal out of one year's appropriation instead of carrying part over into the following year. It will be noted that the items of incidentals and books and supplies have been much smaller this year than before. This low cost cannot be continued in the case of books, and supplies, without seriously crippling the schools. I hope however with better care taken of books already in use we may still keep this item below $1,500, the figures of two years ago.

In conclusion I will say that the expressed purpose of the school board of keeping expenditures within the sum appropriated, has been kept and that we finished the year with every bill paid and with a small balance.

Respectfully submitted,

ANDREW JACKSON,

REPORT OF THE PRINCIPAL OF THE HIGH SCHOOL.

To Mr. Andrew Jackson, Superintendent of Schools:

The total registration for the year ending June 1908, was 184 pupils. At the close of the fall term of the present year the same number of pupils had been registered, and the attendance during that term was 97 per cent of the average membership. In order to maintain this comparatively high attendance two things are necessary. First, the co-operation of parents is needed in the effort to keep pupils in school. Second, teachers should not lose sight of the fact that it is their duty to make school work attractive. It is a well known fact that pupils learn most readily when their attention is fixed on the lesson. Undivided interest and good progress go hand in hand with regular attendance at school.

There are few matters of more vital importance to the management of school work, than sweeping changes in the teaching force. This problem confronted us at the beginning of the year. Of those teachers who were in the school last year Mrs. Allen, alone, remains. To her is due in no small measure the smoothness with which the work of this year has started. Her vital interest in the work of the school has appeared in kind suggestions, in prudent advice and in the influence of a personality which makes for good in every pupil who comes under her instruction. Four of the six new teachers come here without experience. Mr. J. D. Drew, a graduate of Rhode Island State College, has the work in the Science department, and has charge also of the school athletics. Mr. Roland E. Chesley, of Dartmouth, suceeds Miss Myrtle Young

in the first two years work in Rhetoric and English composition. Mr. Chesley has assisted by organizing a school Glee Club. Miss Miriam Fifield, of Mt. Holyoke College, comes to the work in French and Latin. Miss Dorothy Fitts, of Dorchester, (Mass.,) succeeds Mr. A. W. Wing in the Commercial department. Miss B. T. Lull teaches Latin and German. Miss Lull is a graduate of Mt. Holyoke, and has studied in Germany. Her preparation enforced by previous experience as a teacher makes her especially well fitted for her work in the school.

We have in the High School six members of the class which was graduated last year. At first thought this fact may seem to indicate a favorable condition. If this school were equipped with teachers and courses for study beyond that offered regular pupils, and if graduates not contemplating a college course, would select studies in special preparation for business they might profit by a fifth year in the High School. But for the pupil who intends to enter college and who comes back to review work which he should have done properly during his course, such study seems a needless waste of time. Moreover this loss is not confined to the fifth year alone. During preceeding years the pupil feels that he will be graduated with his class on an implied condition that he return and make up deficiencies. This state of affairs, so far as it exists, is unquestionably wrong. By a reasonable amomnt of study for four years the average pupil can get that preparation which will enable him to take up profitably the work of a college course.

In view of the fact that many of our pupils have not kept their work up to the requirement for each year, it has seemed best to neglect social functions. During the fall term the High School held but one entertainment, and that required little preparation. A debating club consisting of members of the High School holds a meeting once in two weeks for practice in parlimentary rules and debating. Living questions are discussed. We realize the need of drill in public speaking and

the fitness of such training in High School work. Until the beginning of the second term of this year no part of our schedule has been devoted to this exercise, but opportunity has been given in the English classes for speaking before the class, and among the Seniors, work in systematic debating has been conducted.

During the fall term the High School received an appropriate gift in the form of a picture for the Assembly Hall. This gift came from the class of 1907, and was formally presented to the school by the President of that class. Interest of this kind which the alumni show in the school cannot be too highly appreciated.

An effort is being made to gather data concerning the occupation and progress of our graduates. The purpose of this movement is to stimulate those who have left as well as hose who are now in school. It is hoped that such data may bring those who are now in active life into closer relation with our present interest and this insures better prospects to those twho are about graduate.

A word should be said here in regard urgent needs in the High School. Some slight changes in the Courses of Study should be made before the beginning of another year. The State Department requires us to have for school use reference books which are not found in the school or in the Public Library. They should be provided at once.

I wish to thank the School Committee, the Superintendent, and my fellow teachers for earnest support and many helpful suggestions.

F. L. THURSTON,
Principal.

Yes, Lewis M. Dillingham,
No, Mabel M. Clow.

8. Essay, "Hero Worship," with Valedictory Addresses.
Mary I. Smith.

Singing of Class Ode.

Presentation of Diplomas.

CLASS ODE.

Words by Perley J. Roberts
Music by Ethel M. Paquette.

Classmates, school for us has ended,
  Four long years together, passed,
Years of joy with labor blended,
  Now we leave them for life's tasks.
As our thoughts turn toward the future,
  Which in mystery's veiled from sight,
May the paths which lie before us,
  Each and all be ever bright.

May the lessons learned in school days,
  Ever keep us in the right,
And fond memories cling around them,
  Cheering us with glad delight.
Now the hour has come for parting,
  Let us lift our hearts above,
Praying God to guide and keep us
  In the ways of truth and love.

CLASS ROLL.

Latin-English Course.

Alfred Whitney Beers.
Walter Alvah Bickford.
Lewis Mott Dillingham.
Chester Albert Jenness.
Stephen Warren Meader.
Cecil Maurice Neal.
Earle Cushing Stanley.
Leroy Tyler Stokes.
Katherine Bartlett.
Mabelle Maxine Clow.
Isabelle Carrie Hayes.
Winnifred Pearl McClellan.
Mary Florence Preston.
Blanche Elizabeth Smart.
Mary Irvine Smith.
Marion Viola Washburn.
Emily Pike Watson.
Marion Levern Wentworth.

English.

Chandler Lee Grant.
Perley James Roberts.
Margaret Martha Lucey.

Business.

Allie Nason Butterfield.
Frank Ellsworth Howard.
Meta Louise Dunlap.
Grace Mae Hall.
Rachel Maude Hoey.
Myrtle May Mace.
Annie Huse McCrillis.
Ethel Marion Paquette.
Louise Perkins.
Bertha Lillian Tebbetts.
Katherine Irene Tebbetts.
Hazel Luverne Thompson.
Sarah Frances Varney.

Special

Roscoe Conklin Hersom.

Vital Statistics

of the

City of Rochester

For the Year Ending December 31st, 1908.

Births
